

morswift *RBH* banding system

The **innovative, multi-banding packaging solution** from MorSwift Machines Inc. enables fast **banding** and **bundling** of products.

100% **pneumatically powered**, the RBH goes wherever you need it - whether it is in a **field, warehouse** or **factory**.

Rubber banding and bundling creates an **economical, secure** and **ecologically responsible** closure without causing product damage.

Ideal for the **Agricultural** industry, the RBH **applies a rubber band** plus **trims** bottom of the product (such as broccoli) via the optional **MorTrim** cutting mechanism.

General Specifications

Model: MorSwift Rubber Band Horizontal (RBH) with optional *MorTrim* cutting mechanism

Bundling Capability: 7" diameter; 24 enclosures per minute

Dimensions: 29" x 24" x 17" (LxWxH)

Weight: 108 lbs

Power: Compressed air (pneumatic); foot pedal actuated

Band Imprinting: Optional one color (PLU, origin, name, etc.)

Rubber Supply: Continuous feed extruded rubber tubing

Patent Pending

Why MorSwift?

- Apply a rubber band enclosure every 2½ seconds
- Reduce labor costs by at least 50%
- Boost production output by over 200%
- Eliminate waste and dropped bands
- Can be mounted on a field harvester or on a packing line
- Spray down for easy cleaning and sanitizing
- Helps reduce repetitive task, work-related injury

ecologically responsible banding
